

LED MODULE SERVICES

*RAPID LED module prototyping
and production services*

CUSTOMIZED LED STRIPS AND MODULES FOR VARIOUS APPLICATIONS

Highly experienced in the LED industry we provide total solutions to clients who need LEDs as a light source for any type of product. We know the supply chain inside out. Our knowhow covers upstream LED chip technology to LED packaging and to downstream LED applications. If you want to adopt LED into your product, we will come up with a most cost-effective, total solution in no time and follow up with making prototypes at the most competitive price while yielding the best quality.

OUR PRODUCTS AND SERVICES

LED products:

- LED components
- Custom-made LED strips and modules
- LED lighting solutions

LED services:

- LED module circuit diagram design
- Developing prototype
- Providing LED total solutions with quick responses
- Assistance to implement LED lighting idea into actual products with low developing costs
- Mass manufacturing with efficient competitive costs and stable superior quality
